

Speedarp

because your legacy deserves to be preserved

About Speedarp

Speedarp is a dedicated mobile application designed to bring relatives and cousins closer, preserve family memories, and keep your family connected across generations. With Speedarp, every profile becomes a living archive, every event a cherished moment, and every memory a thread in your family's story. Whether you're adding relatives, creating events, or uploading photos, the app ensures your legacy is not just remembered, but actively lived. Speedarp is available on both platforms App Store and Play Store.

Creating your Speedarp profile

After downloading the app, on the Home Screen, you observe New User. This is because the app creates **New User** as your default name. At the bottom of the screen, you have options like Home, Tutorial, Kin Feed, Community and Profile. Now tap on **Profile** and then tap on **Edit Profile**.

In the Media Upload, upload any image of yours or any image of your choice to remain distinguishable. Now under the Personal Information section fill in all the necessary fields. In the Full Name field, delete New User and enter your name preferably adding your surname or family name. Then enter your, Phone Number, Birthday date and Gender

The screenshot shows a mobile application interface for editing a profile. At the top, there is a header bar with a close button (X), the title "Edit Profile", and a refresh icon. Below the header, there are two buttons: a green "Media Upload" button with a cloud icon and a red "Remove Media" button with a trash icon. Underneath these buttons is the text "Upload your profile picture". The main section is titled "Personal Information" and contains four input fields: "Full Name", "Phone Number", "Birthday", and "Gender". The "Full Name" field is currently empty, while the others contain placeholder text. The "Gender" field is a dropdown menu.

Then you come across Occupation field, which is a mandatory field to be filled. It has been made mandatory because, it provides input for the Occupational Compass feature. If your occupation isn't found in the list of occupations provided in the drop-down box, select "Others" from the given options. Rest of the fields like Blood Group and Social Media links are optional. Tap on Save Changes. *Congrats!! you have now created your Speedarp profile successfully*

The screenshot shows a mobile app interface for creating a profile. It features three dropdown menus: 'Occupation', 'Blood Group', and 'Social Media Links'. Below the dropdowns are two text input fields: 'Enter Instagram username' and 'Enter Facebook profile link'. At the bottom is a green button labeled 'Save Changes'.

Adding Relatives

In the Relatives section (on the home screen), there is **Add Relative** option, tap on that. Beside the Add Relative option, there is CBS, which means **Cousin Bonding Score**. Every time you add a cousin or relative, this score increases by 2, a bit of gamification!

The screenshot shows the 'Speedarp' app interface. At the top, there's a header with the app name and icons for notifications, messages, and a moon. Below the header is a section titled 'Relatives'. It contains an 'Add Relative' button with a person icon, a 'CBS' label, and a score of '28' with a dropdown arrow. Below this are three green circular buttons, each with a person icon and the text 'User' and 'Hold to remove'.

Under the Select Person, enter the name of the relative or cousin you wish to add. Once you find the name of the person you are searching for, in the Relationship Type, select the type of relationship that is applicable to this person. Tap on the down arrow and the app offers you 23 options. Then you have the Custom Label field wherein you can add the name with which you call this person just like nick name. This is an optional field. You then get an Add option on the top right of the screen. Tap on add and the person gets added your relatives list.

Creating Events

Speedarp's Events creation feature is one of its most unique offerings. It allows users to create customized events that reflect the rhythm of their family lives and relationship milestones. To start creating your own events, tap on the Create Event option (light blue circle). You get the following screen.

Start with creating an event title say Bogatha Waterfalls. Next, in the Event Type, select the option which suits your event like Family, Birthday, Vacation, Anniversary, Holiday and others. Then in the Event Date field, enter the date, and provide a description of the event. In the location field provide details of the location and then add images related to the event. In the Invite People option add the list of people you wish to invite to the event and then tap on Create Event. Your customized event is now created. In the following screen you observe an example of event created using Speedarp's Event creation feature.

The screenshot shows a mobile application interface for creating an event. The form is titled "Create Event" and includes the following fields and options:

- Event Title ***: A text input field containing "Bogatha Waterfalls".
- Event Type**: A dropdown menu with "Vacation" selected.
- Event Date ***: A date picker showing "Sep 26, 2026".
- Description**: A text area containing "Fun with most notorious people. Caution: Unlimited entertainment".
- Location**: A text input field containing "Near Mulugu District".
- Event Photos**: A button labeled "Add Images" with a plus icon.
- Invite People**: A button with a plus icon and a person silhouette.
- Create Event**: A large green button at the bottom.

Now return to home screen and you observe in the notification area regarding the event as Upcoming Events. Click on view details, you will know about the event, date and day, location, event description and images related to the event. Scroll down further, you can know about the Organizer of the event and the people who are attending the event.
